

KONICA MINOLTA

The essentials of imaging

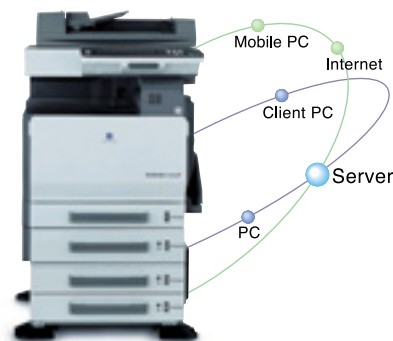

Stop seeing the world in black and white.

In today's business world, colour documents are more essential than ever before—especially for important presentations and proposals. With Konica Minolta's bizhub, quality begins on paper; you can print and copy radiant colour documents and images that will energise your work and impress your clients and customers. The high speed and high quality of bizhub's colour output assure that your productivity won't slow down. And with bizhub's Finishing Function, you can create dynamic brochures, manuals and booklets in-house, allowing you to print on demand and reduce production costs. These are just a few ways bizhub will change how you see your work, and how others see it, too.
