High productivity meets intuitive ease of use

Ready to meet the business needs of all users, from SOHO to small and mid-size workgroups

- Fast print speeds of up to 47ppm (A4)* and first print time from Ready as fast as 6.5 seconds.
- User friendly operation panel and front access
- Energy-saving Eco Mode
- Paper-saving auto duplex as standard and N-up printing

*bizhub 4700P

Giving Shape to Ideas
**Drive Efficiency**

With a time to first print from Ready as quick as 6.5 seconds and fast output speeds of up to 47ppm (A4), the bizhub makes light work of all common office output jobs. The optional paper trays can boost paper capacity up to 2,300 sheets (4700P), reducing downtime caused by empty paper trays. Konica Minolta’s PageScope Utilities software (PageScope Net Care Device Manager, Page Scope Account Manager*) allows status monitoring and consumables management of multiple devices as well as page counting*. The software is the same as that used with Konica Minolta’s A3 MFPS, easing the job of administrators.

**Eco-Friendly Features**

The eco-friendly design of the bizhub 4700P/4000P/3300P series helps to preserve our environment and save operating costs as well. A special Eco Mode reduces power consumption, as well as toner and paper use, while a hibernation setting allows the unit to consume as little as 0.5W of power when not in use—leading to even higher savings than the standard sleep mode. The application of automatic duplex and N-up printing drastically reduces paper usage of many day-to-day printing jobs.

**Outstanding Ease of Use**

The PCL, PS and XPS-compatible driver software for the bizhub 4700P/4000P/3300P series has the same user interface design as the drivers for Konica Minolta’s A3 MFPS, and includes acclaimed features such as the My Tab function. The LCD display* with easy-to-use animated navigation makes adjusting settings quick and intuitive.

Changing toner cartridges and paper settings quick and intuitive. The LCD display* with easy-to-use animated navigation makes adjusting settings quick and intuitive.

The application of automatic duplex and N-up printing drastically reduces paper usage of many day-to-day printing jobs.

**Cartridge Return Program**

Konica Minolta Return Program cartridges are patented print cartridges sold at a discount in exchange for the customer’s agreement to the license requirement that the cartridges will be used only once and returned only to manufacturer for remanufacturing or recycling. These patented cartridges are licensed for single use only and will stop working after delivering a fixed amount of toner. Toner may remain in the cartridge when replacement is requested. Replacement cartridges sold without these restrictions (non-returnable cartridges) are also available.

Please contact a Konica Minolta representative for further details and availability.
