MINIMISE ALL. MAXIMISE ALL.

bizhub PRO 951

Giving Shape to Ideas
Monochrome on-demand at a higher level

True 1,200 dpi resolution through advanced image quality technologies

LED Print Head for 1,200 dpi high resolution outputs
The bizhub PRO951 achieves true 1,200dpi resolution outputs thanks to the LED Print Head (LPH) which offers clearer reproduction of small text and more screen lines for smoother halftones.

Full A3 outputs (19 inches) including crop marks
Achieve full A3 outputs including crop marks with the optional Paper Feeder Unit PF-706 and Large Capacity Unit LU-410. The maximum paper size in the sub scanning direction can be extended to 19 inches (483 mm). Even 324 mm × 483 mm irregular size paper can be used providing a maximum printable area of 314 mm × 483 mm*.

* With optional Large Capacity Unit LU-410 installed.

 Expanded paper handling

High quality reproduction and low temperature fixing with Simitri HD toner
Konica Minolta’s Simitri HD polymerised toner uses smaller and more consistently shaped particles for superior quality reproductions. Low-temperature fixing helps reduce paper curls while saving energy at the same time.

Simitri HD
High Definition Polymerised Toner

Tone curve utility
Fine tune brightness and contrast before printing without a dedicated software. Tone curve utility corrects these without affecting the density of text for true professional results.

Maintaining 100% density for text
100% density can be maintained for text without affecting the correction results of the tone curve.

Other functions
- Improved feeding for more paper types including 40 g/m² thin paper
- Max. 350 g/m² paper compatibility
- Halftone noise reduction
- Advanced technologies that control uneven densities caused by differences in document and developing conditions
- Ozone concentration reduction of band electrode
- Belt transfer system for improved transferred image quality and paper feeding

Register up to 256 types of paper with the Paper List (profile)
Make paper settings for each job quicker with the Paper List (profile). The bizhub PRO 951 can register up to 256 types of paper for immediate recall when needed. Paper size settings, air-blow settings* and paper conditions can also be individually registered for each paper tray.

* With the optional Paper Feeder Unit PF-706 and the Large Capacity Unit LU-410 installed. Excludes main unit trays.
Compact all-in-one finisher FS-532

The FS-532 is an exceptional all-in-one finisher designed for both professional and entry-level operators, providing the flexibility to meet the varying finishing needs of customers. In addition to standard stapling, it can be equipped with the Post Inserter PI-502*, Punch Kit PK-522, and Saddle Stitcher with three-fold function SD-510.

* Optional Mount Kit MK-732 required with PI-502.

products beyond its class

Large Capacity Units LU-409/LU-410

Minimise the downtime required for reloading paper. Large Capacity Units LU-409 and LU-410 hold up to 4,000 A4 sheets* and 4,000 A3 sheets* respectively, while the Paper Feeder Unit PF-706’s 3-layer cassette holds up to 6,000 A3 sheets*.

Together with the main unit’s 3,000-sheet* capacity the bizhub PRO 951 holds up to 9,000 sheets so it can handle large print runs with ease.

* 80 g/m²

Paper Feed Unit PF-706

Highly rigid frame and highly durable parts

The bizhub PRO 951 is built to withstand heavy and continuous use. The highly rigid frame with box-shaped dual-structured chassis prevents the main unit from vibrating and twisting for longer lasting performance.
High affinity and system expandability with office devices

Main unit authentication and IC card authentication
Reinforce information security with the main unit authentication which supports external servers such as Active Directory and centralised management of user information; and touch-type authentication using non-contact IC cards which only allows bizhub access with employee IDs.

Other functions
- LDAP support

Lower TCO and environmental impact

Use of recycled materials
Konica Minolta prioritises the use of materials and parts with low environmental impact for the bizhubs. Environmentally considerate recycled PC/PET and plant-based bioplastic are employed throughout the bizhub PRO 951.

Centralised management and TCO reduction
Numerous technologies to reduce waste, energy and unnecessary costs are employed throughout the bizhub PRO 951 without sacrificing quality and productivity. And centrally manage all of your output devices with PageScope Enterprise Suite for smoother operation.
